

Parental Input Form for RETURNING Campers:
FOR THE DIRECTORS

Dear Fernwood Parents:

Last season you received this same request for information about your daughter from your point of view. Our intention was to seek guidance to help your daughter to grow in areas of strength, and improve in areas of need. We found your comments very helpful and useful.

We are asking you to write an "update" on your daughter, as a year has gone by since she last lived with us. Please include your thoughts on any changes we should be aware of. We would also appreciate your reminder of anything about her last year's experience that was particularly successful or unsuccessful so that we can be mindful for the coming summer.

It is also important for us to be informed of any issues that might be troubling her: have the dynamics of your family changed recently, or is a change in-process, how has her year in school been socially, if a therapist is helping her with any issues, please make us aware so that we can be supportive, etc.. While camp is a break from the everyday pressures of school, it is helpful for us to be aware of issues that might arise during the course of the summer.

The forms will be kept safely in our office for discreet use. It is our hope that by having these thoughts in hand, we will be more responsive to your daughter this summer.

Thank you for returning this to our winter address before June 1.

Camper Name: _____ Birthdate: _____ Completed School Grade _____

Please describe your daughter's strengths and needs:

Camp Activities To Be Encouraged

Social Skills To Be Encouraged

Notable changes since last summer – family dynamic, social, academic, health

Please use the reverse side to write any other comments.
